EUROA HEALTH UPDATE

Euroa Health, in response to the Federal Government's recently announced reductions in Aged Care Funding over the next 4 years and a reduction in the number of people with private health insurance, is currently undertaking a full organisational review to see where it can improve revenue streams and reduce expenditure.

Board President Mr Jim Perry said that the review was a normal course of business particularly in Health Care where the landscape is continuously changing and margins are continuously getting tighter. "We envisage that the review will take a number of months to complete but don't expect any interruptions to the day to day operations of the Hospital or our Aged Care facilities. Our clinical, caring and support systems are solid and as part of the review we will look to strengthen them even further."
